zohar english pdf: From Something to Nothing Harry Fox, Daniel Maoz, Tirzah Meacham, 2019-05-24 Jewish mysticism approaches God as no-thing or nothing, reflecting Judaism's traditional identification of God as incorporeal. Whereas technical philosophical language often employed to discuss Jewish mysticism has a tendency to ward off otherwise interested readers, this study sufficiently breaks down the technical language of Jewish mysticism in its various expressions to allow a beginner to benefit from what may otherwise be indescribable and only approached by consideration of what is not rather than what is. Integral to the title, From Something to Nothing, is the concept that God cannot be something, because that would be restricting, so God is simply no-thing. Ironically, the conventional religious expression for the biblical notion of creation is "something from nothing", whereas the title of this volume is its precise opposite, which may at first seem to be illogical – creation in reverse. However, in a volume dedicated to various deliberations on magic and mysticism, the ultimate reality may receive expression as nothingness, that is, no-thingness, no quality associated with things. What adds to our difficulty today is that nothingness is inextricably linked with silence. Is silence also an element or indication of an ultimate reality or its absence? Or is it merely the reflection of nothing whatsoever? This is at the heart of modern debates between atheists and believers. Believers feel that even this silence speaks to this ultimate reality, whereas atheists claim that if you cannot show it, then you do not know it. In other words, believers

are victims of their own wishful thinking. From Something to Nothing memorializes Canadian mystic and scholar Zalman Schachter Shalomi, z"l, engaging in particular aspects that he addressed at some phase of his colourful and erudite life, providing the reader with a broad spectrum of both phenomenological and intellectual topics.

zohar english pdf: *Kabbalistic Manuscripts and Textual Theory* Daniel Abrams, 2010
Kabbalistic Manuscripts and Textual Theory uncovers the unstated assumptions and expectations of scribes and scholars who fashioned editions from manuscripts of Jewish mystical literature. This study offers a theory of kabbalistic textuality in which the material book the printed page no less than handwritten manuscripts serves as the site for textual dialogue between Jewish mystics of different periods and locations. The refashioning of the text through the process of reading and commenting that takes place on the page in the margins and between the lines blurs the boundaries between the traditionally defined roles of author, reader, commentator and editor. This study shows that kabbalists and academic editors reinvented the text in their own image, as part of a fluid textual process that was nothing short of transformative. This book is certainly monumental, offering in its seven hundred pages a wealth of documentation and distilled argument that manages to be both comprehensive in its materials and transparent in its critical insights. It is rare indeed that a work of such formidable scholarship can actually be a pleasure to read and convincing in its elucidation of what are often extremely complex documentary circumstances and editorial traditions. zohar english pdf: *Descriptive Translation Studies--and Beyond* Gideon Toury, 2012 A replacement of the author's well-known book on Translation Theory, *In Search of a Theory of Translation* (1980), this book makes a case for Descriptive Translation Studies as a scholarly activity as well as a branch of the discipline, having immediate consequences for issues of both a theoretical and applied nature. Methodological discussions are complemented by an assortment of case studies

of various scopes and levels, with emphasis on the need to contextualize whatever one sets out to focus on. Part One deals with the position of descriptive studies within TS and justifies the author's choice to devote a whole book to the subject. Part Two gives a detailed rationale for descriptive studies in translation and serves as a framework for the case studies comprising Part Three. Concrete descriptive issues are here tackled within ever growing contexts of a higher level: texts and modes of translational behaviour -- in the appropriate cultural setup; textual components -- in texts, and through these texts, in cultural constellations. Part Four asks the question: What is knowledge accumulated through descriptive studies performed within one and the same framework likely to yield in terms of theory and practice? This is an excellent book for higher-level translation courses.

zohar english pdf: Israel Gil Zohar, 2015-11-01 In the course of more than a century of nation building (even though Israel has few natural resources other than the grit of its people), the country has developed into a high-tech wonder. Yet peace remains an elusive dream. Israel faces the constant threat of an Iranian nuclear attack and has been involved in several wars. Many Israelis are veterans of more than a single war. Since many Israelis are haunted by war and terror, Post-Traumatic Stress Disorder is common. *Voices from Israel: Stories of Conflict and Resolution, Love and Death* tells about Israel's many accomplishments in the face of great adversity. It's awarts and all commentary on the Jewish state--a country, like many countries, that has its flaws. The battle-hardened people of Israel--Jews, Arabs, Druze, and others--are persevering against the Middle East's climate of racism, intolerance, and terror. These eight stories depict the prejudice, frustration, and heartbreak--tempered with hope--which people experience in Israel.

Although the mystics came from different backgrounds and religious traditions (Islam, Judaism, and Christianity), their spiritual paths led them to similar understandings of a union with the Divine. The three mystics have a timeless and timely message for people who walk the earth eight centuries after they did, no matter an individual's religious background or even if they have none. It is a message of connecting with the "divine spark" deep within us and within the universe.

zohar english pdf: Simplification, Explicitation and Normalization Margherita Ippolito, 2014-09-18 The search for general laws and regularities in Translation Studies gained new momentum in the 1990s when Baker (1993) promoted the use of large electronic corpora as research tools for exploring the linguistic features that render the language of translation different from the language of non-translated texts. By comparing a corpus of translated and non-translated English texts, Baker and her research team put forward the hypothesis that translated texts are characterized by some "universal features", namely simplification, explicitation, normalization and levelling-out. The purpose of this study is to test whether simplification, explicitation and

normalization apply to Italian translations of children's books. In order to achieve this aim, a comparable corpus of translated and non-translated works of classic fiction for children has been collected and analysed using Corpus Linguistics tools and methodologies. The results show that, in the translational subcorpus, simplification, explicitation and normalization processes do not prevail over the non-translational one. Therefore, it is suggested that the status of translated children's literature in the Italian literary "polysystem" (Even-Zohar, 1979, 1990) and, from a general viewpoint, all the cultural, historical and social conditions that influence translators' activities, determine translation choices that can also tend towards processes different from those proposed by Baker.

Some draw attention to tradition in Ottoman practices and agents of translation and interpreting, while others explore the republican period, starting in 1923, with the revolutionary change in script from Arabic to Roman coming in 1928, making a powerful impact on publication and translation practices. Areas covered include the German Jewish academic involvement in translation, traditional and current practices of translating from Kurdish into Turkish, censorship of translated literature, intralingual translations from Ottoman into modern Turkish, pseudotranslation, ideological manipulation and resistance in translation, imitateness vs. originality and metonymics of literary reviewing.

zohar english pdf: Pragmatics in Korean and Japanese Translation Jieun Kiaer, Ben Cagan, 2022-09-30 This book explores how the greater amount of pragmatic information encoded in Korean and Japanese can result in pragmatic (in)visibility when translating between those languages and English. Pragmatic information must be added when translating from English to Korean or Japanese and is easily lost when translating in the other direction. This book offers an analysis of translations in Japanese and Korean of Harry Potter and the Philosopher's Stone and The Hobbit, or There and Back Again to show how the translated versions crystallise the translators' interpretations of relationships in the way characters address one another. This book discusses fan translations of Korean and Japanese to English of various popular media, observing that the emotional meanings easily lost when translating in this direction are often deemed important enough to warrant the insertion of additional explanatory material. The book additionally discusses the role of fan translation in the construction of international online communities and a heightened communal commentary on translation. Western translation commentary has historically lacked sufficient emphasis on translation to and from East Asian languages, and these case studies help to address a problem of central importance to translation to and from languages that encode interpersonal dynamics in dramatically different ways to English. This book will be of interest to students and researchers in translation studies, particularly in Korean and Japanese translation. The book will also appeal to students and researchers of the Korean and Japanese languages.
