aphrodite made me do it quotes: *Controlling Desires* Kirk Ormand, 2008-11-30 Historians of ancient Greece and Rome are sometimes hesitant to engage with the well-documented fact that Greek and Roman men regularly engaged in same-sex sexual relations with younger men. In a similar vein, scholars have constructed elaborate social explanations for Sappho, a 6th-century woman from the island of Lesbos who wrote passionate poetry about her erotic relations with a number of women, in order to avoid her apparent sexual orientation. On the other hand, in recent times the Greeks and Romans have occasionally been idealized as prototypes of modern homosexuality or bisexuality. In this engaging, cross-disciplinary book, Ormand argues that the Greeks and Romans thought of sex and sexuality in ways fundamentally different from our own. Ormand's exploration of Greek and Roman sexual practice allows readers the opportunity to see how attitudes and beliefs about sex—sexuality, in short—functioned in the early civilizations of the West, and how those attitudes reveal the unspoken rules that defined public and private behavior. Ormand treats Greece and Rome in separate sections, with ample cross-references and comparisons. Within each section, individual chapters focus on different types of texts and visual arts. Just as sexuality is presented differently in our legal cases than it is on television sitcoms, or supermarket tabloids, the reader will naturally find that the Greeks and Romans talk one way about sex, love, and marriage in legal speeches and another way in comedies, satires, and philosophical texts. Ormand's analysis takes into account changes in attitude over time, as well as different modes of presenting a complex and interconnected set of social beliefs and behaviors.

aphrodite made me do it quotes: The Music of Reason Michael Davis, 2019-12-13 In recent years, the field of cognitive psychology has begun to explore the rootedness of rational thinking in subrational inspiration, insight, or instinct—a kind of prediscursive hunch that leaps ahead and guides rational thought before the reasoning human being is even aware of it. In *The Music of Reason*, Michael Davis shows that this musical quality of thinking is something that leading philosophers have long been aware of and explored with great depth and subtlety. Focusing on the work of three thinkers traditionally viewed as among the most poetic of philosophers—Rousseau, Nietzsche, and Plato—Davis reveals the complex and profound ways in which they each plumbed the depths of reason's prerational foundations. Davis first examines Rousseau's *Essay on the Origins of Languages: Where Something Is Said About Melody and Musical Imitation* and Nietzsche's *The Birth of Tragedy Out of the Spirit of Music* to demonstrate that revealing the truth, or achieving individual enlightenment, requires poetic techniques such as irony, indirection, and ambiguity. How philosophers say things is as worthy of our attention as what they say. Turning to Plato's *Lesser Hippias*, Davis then reconsiders the relation between truth-telling and lying, finding the Platonic dialogue to be an artful synthesis of music and reason. The ancient quarrel between philosophy and poetry that Plato placed near the core of this thinking suggests a tension between the rational (scientific) and the nonrational (poetic), or between the true and the beautiful—the one clear and definite, the other allusive and musical. Contemplating language in Rousseau, the Dionysian in Nietzsche, and playfulness in Plato, *The Music of Reason* explores how what we might initially perceive as irrational and so antithetical to reason is, in fact, constitutive of it.

aphrodite made me do it quotes: The Oxford Handbook of Philip Sidney, 2024-11-13 The *Oxford Handbook of Philip Sidney* is the most comprehensive collection of essays on Sidney published to date. aphrodite made me do it quotes: *Translating Air* Kath MacLean, 2018-09-28 The hunt over; the kill complete / limping towards perfection, padding / about the room, thorns in her thumbs / Hermes crawling on all fours - / That was the last I saw of Hilda. What is it to remember a life, to relive it, to mythologize it? Things that were said or not said haunt us for a lifetime. In *Translating Air* Kath MacLean imagines conversations between the modernist poet H.D. and Sigmund Freud during the poet's sessions with him in 1933 to 1934 and the dialogues that continued long afterwards in H.D.'s own mind. Shadowed by uncertainty and memory lapses or blinded by flashes of profound truth, readers are transported to a world of myth, continuity, and human connection. H.D.'s palimpsest account of herself as girl and woman, writer and Imagist, and psychic and spiritualist is engaging and elastic as it pulls readers into a space where time is both endless and sure. Questioning her sanity and a world gone mad with war, H.D.'s personal accounts help us understand what it means to love deeply, to feel passionately, and to think beyond the limits of our individual consciousness. MacLean demystifies and humanizes one of the most misunderstood modernist writers in this stunning collection. *Translating Air* takes us on a remarkable journey into the known and unknown and allows readers to experience one remarkable woman's struggle to get it right, to live life with dignity, hope, wisdom, and the courage to have no regrets.

aphrodite made me do it quotes: *Birth in Babylonia and the Bible* Stol, 2021-11-15 Utilising material spanning 3000 years, this book examines childbirth in the Biblical and Babylonian world. Stol's scholarship has an extraordinary range. He follows the mother and child from conception to weaning, analyzing a variety of different texts and topics. He deals, for example, with the vicissitudes and procedures of labor and delivery, delivery with magical plants and amulets, and with legal issues relating to abortion or to the liability of the wet-nurse. Many of the texts are rich and distinctive. Babylonian incantations to facilitate birth describe the child moving over the dark sea and, like a ship, reaching the quay of life. His discussions are supplemented with relevant examples drawn from Greek and Roman sources, Rabbinic literature, and modern ethnographic material from traditional Middle Eastern societies. The last chapter, written by F.A.M. Wiggermann, deals with the horrible baby-snatching demon, Lamastum. This book is a fully re-worked edition of a volume originally written in Dutch (1983). Both authors teach at the Free University (Amsterdam).
