cash online palm beach county: Climate Change and Sea Level Rise in South Florida Risa Palm, Toby Bolsen, 2020-01-01 South Florida is frequently cited as the part of the United State of America as most susceptible to the devastation accompanying sea level rise. Several scholarly studies have shown the negative impact of coastal location in Florida on housing values. Are the residents of South Florida concerned? Is susceptibility to sea level rise actually affecting the housing market in terms of demand, the availability of home mortgages, or house prices? Are people living at particular risk from sea level rise aware of this risk and more open to new information about climate change? Do they support policies and laws to mitigate the pace and extent of climate change? Answers to these questions are not only of general interest, but they are also key to our understanding of the human dimensions of this problem. This book describes the results of a detailed survey in which respondents viewed a local map displaying flooding to their own community that would result from a Category 3 hurricane in 2033. It discusses political party identification and ideology that has an overwhelming impact in shaping views about sea level rise and climate change. This book has enormous implications for the effectiveness of communicating risk information. The text is important if we, as a nation, are to design communication strategies that will lead to broader policy to combat or mitigate this risk.

cash online palm beach county: Ruthless Phil Trupp, 2010-08-20 Ruthless is a candid

exploration of the criminal subculture of Wall Street, and one of the first books to speak for the victims of the financial meltdown. On February 14, 2008, author Phil Trupp received a call from one of his brokers telling him a large portion of his investments were frozen—on ice—turning his life and plans for retirement upside down. When the fog started to clear, Trupp realized he was one of many investors caught up in what experts called the greatest attempted securities fraud in modern Wall Street history—a \$336 billion scam which made the savings and loan scandal of the 1980s look like a simple street mugging. The path to destruction, financial or otherwise, often begins with a simple proposition. For author Phil Trupp it came from one of his stock brokers: Take it, Phil. It's free money. This free money came from auction-rate securities (ARS). Auction-Rate Securities are corporate or municipal bonds with a long-term maturity for which the interest rate is reset at frequent auctions. ARS interest rates were higher than money markets and were sold as completely safe, liquid, Triple-A rated cash equivalents, a deceptive sales pitch that lured hundreds of thousands of investors to buy the securities. Since 2008, most auctions have failed leaving the market largely frozen. The victims ranged from individual investors to the Joffe Foundation, a nonprofit that can no longer fund programs that help prevent AIDS in Africa, to the Port Authority of New York. While this is a classic 21st century tale of Wall Street greed and betrayal, it is also a story of redemption and the life-altering struggle of American investors and others around the world who, in the end, beat the Wall Street fraud-masters. *Ruthless* is a story of how individual investors became mad as hell and joined together to reclaim their cash investments. So far they've reclaimed more than \$200 billion and continue fighting for the rest. A lively, page-turning guide for any investor with a stunning lesson on how to fight back and win.

cash online palm beach county: *Amending the Object Body* Deborah Caslav Covino, 2012-02-01 Feminist theorists have often argued that aesthetic surgeries and body makeovers dehumanize and disempower women patients, whose efforts at self-improvement lead to their objectification. *Amending the Object Body* proposes that although objectification is an important element in this phenomenon, the explosive growth of makeover culture can be understood as a process of both abjection (ridding ourselves of the unwanted) and identification (joining the community of what Julia Kristeva calls clean and proper bodies). Drawing from the advertisement and advocacy of body makeovers on television, in aesthetic surgery trade books, and in the print and Web-based marketing of face lifts, tummy tucks, and Botox injections, Deborah Caslav Covino articulates the relationship among objectification, abjection, and identification, and offers a fuller understanding of contemporary beauty-desire.

cash online palm beach county: Socio-Political Risk Management Kurt J. Engemann, Cathryn F. Lavery, Jeanne M. Sheehan, 2023-04-27 Managing risk necessitates an understanding of both how to avoid detrimental outcomes and to reap beneficial results. Organizations are regularly confronted with complex decisions involving risk and the impending consequences of the negative impact of its manifestation. However, the positive aspects of embracing risk should also be sufficiently evaluated to obtain a full assessment of opportunities. Socio-Political Risk Management: Assessing and Managing Global Insecurity covers a range of viewpoints and issues which can be applied to various organizational agency structures. These perspectives examine how social and political risk can impact an agency, and what recommendations are made to adapt, mitigate, and strengthen the organization against political risk. Accessibility to personnel and agencies via social media, the internet and public exposure compounded with political and social societal shifts have led many agencies in a constant spin to assuage and sustain viability and relevance publicly. Socio-Political Risk Management: Assessing and Managing Global Insecurity serves the readers by raising awareness and the necessity to control social and political risks in their organizations. This volume explores pathways for those in differing organizational structures to find common threads pertaining to social and political risks. An important goal of the work is also to develop a framework for managing and exploiting risk that can be applied at the organizational level.

cash online palm beach county: Rising Out of Hatred Eli Saslow, 2018-09-18 The powerful story of how a prominent white supremacist changed his heart and mind. From the Pulitzer Prize-winning reporter, this is a book to help us understand the American moment and to help us better understand one another. "Rising Out of Hatred proclaims if the successor to the white nationalist movement can forsake his ideological upbringing, can rebirth himself in antiracism, then we can too no matter the personal cost. This book is an inspiration." —Ibram X. Kendi, bestselling author of *How to Be An Antiracist* Derek Black grew up at the epicenter of white nationalism. His father founded Stormfront, the largest racist community on the Internet. His godfather, David Duke, was a KKK Grand Wizard. By the time Derek turned nineteen, he had become an elected politician with his own daily radio show—already regarded as the the leading light of the burgeoning white nationalist movement. We can infiltrate, Derek once told a crowd of white nationalists. We can take the country back. Then he went to college. At New College of Florida, he continued to broadcast his radio show in secret each morning, living a double life until a classmate uncovered his identity and sent an email to the entire school. Derek Black ... white supremacist, radio host ... New College student??? The ensuing uproar overtook one of the most liberal colleges in the country. Some students protested Derek's presence on campus, forcing him to reconcile for the first time with the ugliness of his beliefs. Other students found the courage to reach out to him, including an Orthodox Jew who invited Derek to attend weekly Shabbat dinners. It was because of those dinners—and the wide-ranging relationships formed at that table—that Derek started to question the science, history, and prejudices behind his worldview. As white nationalism infiltrated the political mainstream, Derek decided to confront the damage he had done. *Rising Out of Hatred* tells the story of how white-supremacist ideas migrated from the far-right fringe to the White House through the intensely personal saga of one man who eventually disavowed everything he was taught to believe, at tremendous personal cost. With great empathy and narrative verve, Eli Saslow asks what Derek Black's story can tell us about America's increasingly divided nature.

cash online palm beach county: *Chain of Title* David Dayen, 2016-05-17 In the depths of the Great Recession, a cancer nurse, a car dealership worker, and an insurance fraud specialist helped uncover the largest consumer crime in American history—a scandal that implicated dozens of major executives on Wall Street. They called it foreclosure fraud: millions of families were kicked out of their homes based on false evidence by mortgage companies that had no legal right to foreclose. Lisa Epstein, Michael Redman, and Lynn Szymoniak did not work in government or law enforcement. They had no history of anticorporate activism. Instead they were all foreclosure victims, and while struggling with their shame and isolation they committed a revolutionary act: closely reading their mortgage documents, discovering the deceit behind them, and building a

movement to expose it. Fiscal Times columnist David Dayen recounts how these ordinary Floridians challenged the most powerful institutions in America armed only with the truth—and for a brief moment they brought the corrupt financial industry to its knees.
