congress in a flash pdf: *Politics Inc.* John Raidt, 2022-03-02 The book examines the dynamics driving the country's deeply troubled political culture and highlights reforms needed in the post-Trump era to strengthen US democracy. The author paints a clear and sobering portrait of a mercenary election industry and its support structure tailored to perpetuate and exploit America's social and political division. He shows how corrosive partisan animosity, dysfunctional political institutions, and even Trumpism are symptoms of a broken system dominated by a self-serving party duopoly. Having hacked the democratic process for its own ends, the cartel's intrigues continue to undermine functional compromise and the virtues essential for self-governance. Without timely structural reform outlined in the narrative, *Politics Inc.*, abetted by technological, social, and cultural factors, will continue to undermine the country from the far right and far left. The stakes could not be higher. At risk is the nation's security and the future of democracy at home and around the globe.

congress in a flash pdf: International Trade and Global Macropolicy Farrokh Langdana, Peter T. Murphy, 2013-07-16 In the curricula of highly ranked MBA programs, two areas of discussion are conspicuously absent: International Trade, and Global Macroeconomic Policy. This book cuts through the emotions and superficial "solutions" and provides the reader with a thorough understanding of the hard-hitting theoretical models that drive the global flow of goods, services, and capital in the real world. A key feature of this volume is the presentation of the theoretical models, and the discussion of their implications in the context of real-world applications. This text is uniquely designed for current and future business leaders who are, or will be, engaged in the global economy. Armed with an understanding of the theoretical underpinnings driving goods, capital and ideas across national boundaries, readers will learn to anticipate the effects of trade and macroeconomic policy changes, and will have the tools to make sound, informed decisions for themselves and their global organizations.
