In 2022, the fasting calendar is a vital guide for the faithful, reflecting the church's deep-rooted customs and the importance of fasting in the life of believers. The fasting periods are not merely about abstaining from food; they are a time for spiritual reflection, prayer, and a closer relationship with God. This article explores the fasting calendar of the Ethiopian Orthodox Church for the year 2022, detailing its significance, various fasting periods, and the practices associated with them.

Overview of Fasting in the Ethiopian Orthodox Church

Fasting in the Ethiopian Orthodox Church is a multifaceted practice that encompasses physical, spiritual, and communal aspects. The church emphasizes the importance of fasting as a means of spiritual purification and growth. The fasting periods are designed to help the faithful detach from worldly pleasures and focus on prayer and repentance.

The Ethiopian Orthodox fasting calendar is distinctive due to its rigorous schedule and specific guidelines regarding what can be consumed during these periods. The church differentiates between various types of fasts, some of which are more stringent than others.

Types of Fasting

The Ethiopian Orthodox Church recognizes several types of fasting, each with its own rules and significance:

1. **Abstention from Certain Foods:** During fasting periods, believers typically abstain from meat, dairy products, and eggs. Fish may be permitted on certain days, depending on the specific fast.
2. **Partial Fasting:** Some fasts allow for meals that are lighter in nature, typically consisting of vegetables, grains, and legumes.
3. **Total Fasting:** Certain days may require total abstention from food and drink, especially on significant days of observance.
4. **Private Fasting:** Individuals may choose to engage in private fasting outside of the designated church calendar, based on personal spiritual goals.

Ethiopian Orthodox Fasting Calendar 2022

The fasting calendar for 2022 is structured around key events and feasts in the church. Below are the main fasting periods observed throughout the year.

1. The Great Lent (Abiy Tsom)

Duration: 55 days

Start Date: February 28, 2022

End Date: April 25, 2022

The Great Lent is the most significant fasting period in the Ethiopian Orthodox Church, leading up to the celebration of Easter (Fasika). It serves as a time of preparation for the resurrection of Jesus Christ. The Great Lent is characterized by strict fasting and increased spiritual activities, including prayer and almsgiving.

During this period, the faithful refrain from consuming animal products and often participate in communal prayers and church services. The final week of the Great Lent, known as Holy Week, is particularly intense, culminating in the celebration of the resurrection on Easter Sunday.

2. The Fast of the Virgin Mary (Tsome Genna)

Duration: 15 days

Start Date: August 7, 2022

End Date: August 21, 2022

This fasting period commemorates the Virgin Mary's role in the Christian faith and is observed in honor of her dormition (assumption into heaven). During the Fast of the Virgin Mary, the faithful engage in prayer and reflection, often attending church services that focus on the life and virtues of Mary.

The fast is marked by abstaining from meat and dairy products, with worshippers often consuming a plant-based diet.

3. The Fast of Nineveh (Tsome Nehassie)

Duration: 3 days

Start Date: February 14, 2022

End Date: February 16, 2022

The Fast of Nineveh occurs in February, commemorating the biblical story of Jonah and the city of Nineveh. This short but significant fast emphasizes repentance and humility. It is an opportunity for the faithful to reflect on their lives and seek forgiveness.

During this fast, believers typically engage in prayer, attend church services, and abstain from meat and dairy.

4. The Fast of the Apostles (Tsome Tseday)

Duration: Varies (usually around 15 days)

Start Date: June 6, 2022

End Date: June 19, 2022

This fast honors the apostles and their missionary work. The duration of the Fast of the Apostles can vary, but it typically begins after the Feast of Pentecost. During this period, the faithful engage in prayer and reflection on the teachings of the apostles.

Food restrictions during this fast are similar to those observed during the Great Lent.

5. The Fast of the Holy Cross (Tsome Meskel)

Duration: 2 weeks

Start Date: September 27, 2022

End Date: October 11, 2022

This fasting period commemorates the finding of the True Cross by St. Helen. The Fast of the Holy Cross is observed with prayers, reflection, and a focus on the significance of the cross in the Christian faith.

Similar dietary restrictions apply during this fast, with an emphasis on a plant-based diet.

Fasting Practices and Spiritual Significance

The fasting practices of the Ethiopian Orthodox Church are deeply intertwined with the spiritual lives of its adherents. Here are some key aspects of fasting practices:

Prayer and Worship

During fasting periods, congregational prayers and church services become more frequent. The faithful are encouraged to participate in these gatherings, which focus on repentance, spiritual growth, and community.

Almsgiving

Fasting is not only about abstaining from food but also about giving to those in need. The faithful are

encouraged to engage in acts of charity during fasting periods, sharing their resources with the less fortunate.

Spiritual Reflection

Fasting periods provide an opportunity for believers to engage in self-reflection and spiritual growth. Many individuals use this time to read scripture, meditate, and strengthen their relationship with God.

Community and Fellowship

Fasting fosters a sense of community among believers. The shared experience of fasting creates bonds of fellowship, allowing individuals to support one another both spiritually and emotionally.

Conclusion

The Ethiopian Orthodox Church fasting calendar for 2022 is an integral part of the religious life of its adherents. Through various fasting periods, believers are called to deepen their faith, engage in prayer and reflection, and practice acts of charity. ethiopian orthodox church fasting calendar 2022: *Religion and Nature Conservation* Radhika Borde, Alison A Ormsby, Stephen M Awoyemi, Andrew G Gosler, 2022-10-31 This book presents a broad array of global case studies exploring the interaction between religion and the conservation of nature, from the viewpoints of the religious practitioners themselves. With conservation and religion often being championed as allies in the quest for a sustainable world where humans and nature flourish, this book provides a much-needed compendium of detailed examples where religion and conservation science have been brought together. Case studies cover a variety of religions, faiths and practices, including traditional, Indigenous, Buddhism, Christianity, Hinduism, Islam, Jainism, Judaism, Shinto and Zoroastrianism. Importantly, this volume gives voice to the religious practitioners and adherents themselves. Beyond an exercise in anthropology, ethnobiology and comparative religion, the book is an applied work, seeking the answer to how in a world of nearly eight billion people, we might help our own species to prevent the extinction of life. This book will be of great interest to students and scholars of nature conservation, environment and religion, cultural geography and ethnobiology, as well as practitioners and professionals working in conservation.

Over the past few decades, maternal childbirth injuries have become a potent symbol of Western biomedical intervention in Africa, affecting over one million women across the global south. Western-funded hospitals have sprung up, offering surgical sutures that ostensibly allow women who suffer from obstetric fistula to return to their communities in full health. Journalists, NGO staff, celebrities, and some physicians have crafted a stock narrative around this injury, depicting afflicted women as victims of a backward culture who have their fortunes dramatically reversed by Western aid. With *Beyond Surgery*, medical anthropologist Anita Hannig unsettles this picture for the first time and reveals the complicated truth behind the idea of biomedical intervention as quick-fix salvation. Through her in-depth ethnography of two repair and rehabilitation centers operating in Ethiopia, Hannig takes the reader deep into a world inside hospital walls, where women recount stories of loss and belonging, shame and delight. As she chronicles the lived experiences of fistula patients in

clinical treatment, Hannig explores the danger of labeling “culture” the culprit, showing how this common argument ignores the larger problem of insufficient medical access in rural Africa. Beyond Surgery portrays the complex social outcomes of surgery in an effort to deepen our understanding of medical missions in Africa, expose cultural biases, and clear the path toward more effective ways of delivering care to those who need it most.

ethiopian orthodox church fasting calendar 2022: Sing and Sing On Kay Kaufman Shelemay, 2022-01-11 In *Sentinel Musicians of the Ethiopian American Diaspora*, Kay Kaufman Shelemay shares more than forty years of research among Ethiopian musicians in the midst of a widespread and evolving diaspora. Beginning on the eve of the Ethiopian revolution in 1974 all the way up to the present day, Shelemay follows musicians as some leave Ethiopia for the US, setting up essential networks of support in cities such as New York, Boston, and Washington, DC. Throughout this profound transition, Shelemay shows how Ethiopian musicians serve a critical function in social and political life by both safeguarding community identity and challenging authority within Ethiopian society. She coins the term sentinel musicians to express musicians' double capacity to guard culture and guide it through periods of change, transforming the world around them under political pressures and during times of extreme social stress. While musicians held this role in Ethiopian culture long before the revolution began, it has taken on new meanings and contours in the Ethiopian diaspora. Some sentinel musicians have quite literally led the way as they migrated to new locales, establishing transnational networks, founding new institutions, and undertaking numerous initiatives in community building. Ultimately, Shelemay shows that musicians are uniquely positioned to serve this sentinel role as guardians and challengers of cultural heritage--
