mexican spanish phrases pdf: Mutuality in El Barrio Carey Kasten, Brenna Moore, 2024-04-16 The stories of 18 immigrant families from East Harlem and their experiences with one of New York's deeply-rooted organizations On any given weekday, people stream in and out of Little Sisters of the Assumption Family Health Service's bright, airy building on 115th Street. They are mostly mothers who find their way to LSA, sometimes only weeks after crossing the border from Mexico, having heard of the support that las hermanitas ("the little sisters") offer. Opening a window into the world of New York's Spanish-speaking newcomers, Mutuality in El Barrio combines oral histories with archival research of the history, spirituality, and ministry of LSA to present how this well-established organization serves vulnerable populations with a unique approach they call "mutuality." LSA is part of a network of East Harlem's powerful grassroots organizations that draws from the remarkable strengths of local families in its community. It is a place of healing and empowerment focused on the overall holistic health of resident families. Long-term relationships are cultivated here rather than quick fixes, and it is a place that nurtures people's full potential as leaders, parents, and advocates for themselves. In Mutuality in El Barrio, eighteen mothers share how, through the help of LSA, they managed to navigate a strange city and an unfamiliar language in a neighborhood that has long been a site of incredible challenges and extraordinary strength, creativity, and cultural vitality. These personal accounts of mothers, long-time LSA staff, and nuns reveal how these women found solidarity, accompaniment, care, neighborhood transformation, and binding connections through mutuality that helped them grow and connect in East Harlem. Their stories shine a light on an organization that began as a small community of vowed nuns who, like these mothers, also trace their origins abroad.

mexican spanish phrases pdf: Prosodic boundary phenomena Fabian Schubö, Sabine Zerbian, Sandra Hanne, Isabell Wartenburger, 2023-05-05 In spoken language comprehension, the hearer is faced with a more or less continuous stream of auditory information. Prosodic cues, such as pitch movement, pre-boundary lengthening, and pauses, incrementally help to organize the incoming stream of information into prosodic phrases, which often coincide with syntactic units. Prosody is hence central to spoken language comprehension and some models assume that the speaker produces prosody in a consistent and hierarchical fashion. While there is manifold empirical evidence that prosodic boundary cues are reliably and robustly produced and effectively guide spoken sentence comprehension across different populations and languages, the underlying mechanisms and the nature of the prosody-syntax interface still have not been identified sufficiently. This is also reflected in the fact that most models on sentence processing completely lack prosodic information. This edited book volume is grounded in a workshop that was held in 2021 at the annual conference of the Deutsche Gesellschaft für Sprachwissenschaft (DGfS). The five chapters cover selected topics on the production and comprehension of prosodic cues in various populations and languages, all focusing in particular on processing of prosody at structurally relevant prosodic boundaries. Specifically, the book comprises cross-linguistic evidence as well as evidence from non-native listeners, infants, adults, and elderly speakers, highlighting the important role of prosody in both language production and comprehension.

mexican spanish phrases pdf: **The Changing Face of Corpus Linguistics** Antoinette Renouf, Andrew Kehoe, 2006 This volume is witness to a spirited and fruitful period in the evolution of corpus linguistics. In twenty-two articles written by established corpus linguists, members of the ICAME (International Computer Archive of Modern and Mediaeval English) association, this new volume brings the reader up to date with the cycle of activities which make up this field of study as it is today, dealing with corpus creation, language varieties, diachronic corpus study from the past to present, present-day synchronic corpus study, the web as corpus, and corpus linguistics and grammatical theory. It thus serves as a valuable guide to the state of the art for linguistic researchers, teachers and language learners of all persuasions. After over twenty years of evolution, corpus linguistics has matured, incorporating nowadays not just small, medium and large primary corpus building but also specialised and multi-dimensional secondary corpus building; not just corpus analysis, but also corpus evaluation; not just an initial application of theory, but self-reflection and a new concern with theory in the light of experience. The volume also highlights the growing emphasis on language as a changing phenomenon, both in terms of established historical study and the newer short-range diachronic study of 20th century and current English; and the growing area of overlap between these two. Another section of the volume illustrates the recent changes in the definition of 'corpus' which have come about due to the emergence of new technologies and in particular of the availability of texts on the world wide web. The volume culminates in the contributions by a group of corpus grammarians to a timely and novel discussion panel on the relationship between corpus linguistics and grammatical theory.

mexican spanish phrases pdf: **Bridles and Biscuits** Gary L. Pinkerton, Tom H. Gann, 2025-05-30 Breakfast and his horse's bridle: these were what a Spanish soldier in 1790s Spanish East Texas traded for the unregulated goods found in his possession. Here Gary L. Pinkerton uncovers the true nature of contraband trade and why it was so pervasive. "This poor soldier," Pinkerton writes, "was willing to ride bridle-less on horseback to Béxar and risk arrest so he could give his wife a gift. No nation on earth could stop that kind of trade." The soldier's confession further reveals that while some smugglers dealt in arms and livestock, most illicit trading at the time was carried out for convenience and economic survival rather than profit. **Bridles and Biscuits: Contraband Culture in Spanish East Texas** explores the complex economies and shifting structures of a borderland environment. In 1773, as residents of Los Adaes were abruptly forced to relocate to Béxar, the Spanish retreat from the region created a greater opening for unregulated trade among French, American, and Italian settlers. For five years before Spanish subjects resettled Nacogdoches in 1779, the people forced out of Los Adaes forged a new existence on the Trinity River in a place they called Bucareli. There, Antonio Gil Ibarvo solidified his role as a key figure in contraband trade. Through the story of Ibarvo's rise to become the leader of Nacogdoches and his subsequent arrest and removal from that post, Pinkerton demonstrates how the region that hosted the exiled

Adaeseños “became the entry point for those with bigger goals than trading horses and skins.” As Pinkerton concludes, borders are porous, and over time more was at stake than horse tack and breakfast. *Bridles and Biscuits* delivers new insights into this relatively unexplored era of colonial Texas history.

mexican spanish phrases pdf: Race, Poverty, and Social Justice José Z. Calderón, 2023-07-03 This volume explores multiple examples of how to connect classrooms to communities through service learning and participatory research to teach issues of social justice. The various chapters provide examples of how collaborations between students, faculty, and community partners are creating models of democratic spaces (on campus and off campus) where the students are teachers and the teachers are students. The purpose of this volume is to provide examples of how service learning can be integrated into courses addressing social justice issues. At the same time, it is about demonstrating the power of service learning in advancing a course content that is community-based and socially engaged.
