neighboring faiths pdf: *God among Sages* Kenneth Richard Samples, 2017-01-31 Was Jesus just a spiritual leader, like Buddha, Krishna, Confucius, and Muhammad? Or is he something more--something else entirely? In *God among Sages*, apologist Ken Samples offers readers a biblical and historical portrait of Jesus, grounded in the claims Jesus makes about himself. Then Samples compares and contrasts Jesus with Buddha, Krishna, Confucius, and Muhammad using eight relevant categories of evaluation. He also helps readers understand the competing philosophies of religious pluralism, inclusivism, and exclusivism. The result is a clearer understanding of what sets Jesus apart as not simply a teacher to follow but God himself, worthy of our full allegiance and worship. neighboring faiths pdf: *The Wolf King* Abigail Krasner Balbale, 2023-01-15 Winner of the

Wallace K. Ferguson Prize Winner of the Dionisius A. Agius Book Prize *The Wolf King* explores how political power was conceptualized, constructed, and wielded in twelfth-century al-Andalus, focusing on the eventful reign of Muhammad ibn Sa'd ibn Ahmad ibn Mardanish (r. 1147–1172). Celebrated in Castilian and Latin sources as *el rey lobo*/rex lupus and denigrated by Almohad and later Arabic sources as irreligious and disloyal to fellow Muslims because he fought the Almohads and served as vassal to the Castilians, Ibn Mardanish ruled a kingdom that at its peak constituted nearly half of al-Andalus and served as an important buffer between the Almohads and the Christian kingdoms of Castile and Aragon. Through a close examination of contemporary sources across the region, Abigail Krasner Balbale shows that Ibn Mardanish's short-lived dynasty was actually an attempt to integrate al-Andalus more closely with the Islamic East—particularly the Abbasid caliphate. At stake in his battles against the Almohads was the very idea of the caliphate in this period, as well as who could define righteous religious authority. *The Wolf King* makes effective use of chronicles, chancery documents, poetry, architecture, coinage, and artifacts to uncover how Ibn Mardanish adapted language and cultural forms from around the Islamic world to assert and consolidate power—and then tracks how these strategies, and the memory of Ibn Mardanish more generally, influenced expressions of kingship in subsequent periods. neighboring faiths pdf: Peoples and Places Matthew Hirt, 2022-05-27 Jesus's final command to his disciples was to make disciples of all nations. But who are the nations? How do we know we are being obedient to the task? Do our current lists of ethnolinguistic people groups sufficiently answer the question? For the last fifty years, missiologists and missionaries have discussed this topic, but much of the conversation has been focused on definitions that give little attention to biblical theology. When we explore how the Bible describes the nations, we find some other categories that have been overlooked, forgotten, or set aside in the development of missions strategy. Geography is one of these categories. However, this is not simply bringing current geo-political entities back into our missions strategy. Instead, Matthew Hirt is calling on missiologists, missions researchers, and missionaries on the field to discover how people groups identify their own geographies and, in turn, how that geography contributes to a people group's identity.

In the absence of any Jewish cookbook from the pre-1492 era, it requires arduous research and a creative but disciplined imagination to reconstruct Sephardic tastes from the past and their survival and transmission in communities around the Mediterranean in the early modern period, followed by the even more extensive diaspora in the New World. In this intricate and absorbing study, Hélène Jawhara Piñer presents readers with the dishes, ingredients, techniques, and aesthetic principles that make up a sophisticated and attractive cuisine, one that has had a mostly unremarked influence on modern Spanish and Portuguese recipes.

neighboring faiths pdf: *The Keys to Bread and Wine* Abigail Agresta, 2022-07-15 How did medieval people think about the environments in which they lived? In a world shaped by God, how did they treat environments marked by religious difference? *The Keys to Bread and Wine* explores the answers to these questions in Valencia in the later Middle Ages. When Christians conquered the city in 1238, it was already one of the richest agricultural areas in the Mediterranean thanks to a network of irrigation canals constructed under Muslim rule. Despite this constructed environment, drought, flooding, plagues, and other natural disasters continued to confront civic leaders in the later medieval period. Abigail Agresta argues that the city's Christian rulers took a technocratic

approach to environmental challenges in the fourteenth century but by the mid-fifteenth century relied increasingly on religious ritual, reflecting a dramatic transformation in the city's religious identity. Using the records of Valencia's municipal council, she traces the council's efforts to expand the region's infrastructure in response to natural disasters, while simultaneously rendering the landscape within the city walls more visibly Christian. This having been achieved, Valencia's leaders began by the mid-fifteenth century to privilege rogations and other ritual responses over infrastructure projects. But these appeals to divine aid were less about desperation than confidence in the city's Christianity. Reversing traditional narratives of technological progress, *The Keys to Bread and Wine* shows how religious concerns shaped the governance of the environment, with far-reaching implications for the environmental and religious history of medieval Iberia.

neighboring faiths pdf: Tri-level Identity Crisis Tapiwa N. Mucherera, Chris Kiesling, Anne Kiome Gatobu, 2020-07-31 This text captures the profound unacknowledged crisis that is unique to children of first-generation immigrants, by virtue of their being caught in a world of their parents' culture of origin and their social experience in the United States. The book makes the case for three levels of adolescent crisis unique to this population, namely, the general developmental crisis experienced by all adolescents as articulated by developmental theories; the cultural identity crises experienced by ethnic minority persons as they encounter the layered racialization of American history; and, finally, the unique crisis that arises from conflicting cultural values and morals when first-generation immigrant parents, wanting to preserve native values, clash with their children, who seek belonging in the Western context in which they currently reside. The book traces the psychological, emotional, and social roots of the crisis. The authors, representing immigrants from different continents, portray the unique, ethnic minority challenges they encounter in coming to the US, exemplifying further the tri-level crisis. Finally, the book offers ways that parents can be proactive in helping their children navigate the potential tri-level crisis through ITAV (It Takes a Village) camps and family palavers.

neighboring faiths pdf: A CHRISTIAN PERSPECTIVE ON ISLAM'S ORIGINS Gabriel Aryeh, 2024-01-24 A BRIEF SYNOPSIS OF A CHRISTIAN PERSPECTIVE ON ISLAM After several interactions with Muslims of distinct sects in the Bronx community, NYC schools, and the workplace through the decades, Aryeh observed how some professing Christians were led to believe in the Islamic claim of Muhammad's legitimacy as a prophet. Although a few maintained the belief that Jesus remained holy as a prophet, they suggested he was a mere man and abandoned their past confessions regarding his divinity. Nevertheless, the more astounding claim many ex-Christians and Muslims made suggested that the Jewish and Christian God found in the Bible identified as the same deity of the Qur'an. Hence, these claims above initiated the primary reasons for delving deep into the study of Islam and writing this book for the sake of not only reaching many believers who erred from Christianity but the Muslims who believed that Allah identified as the God of the Jews and Christians. Indeed, the enormous task of disproving Islam as an extension of the Abrahamic faith required many investigations into the questions raised by such astonishing claims. This book makes deep inquiries into the historical and theological assertions found in the Islamic faith concerning Allah, Muhammad, and the religious practices observed today, which have survived for little over fourteen centuries. Consequentially, the unfortunate misconceptions taught about Islam in many church pulpits since the early days of this researcher's youth stemmed from books found in academia and some Christian libraries, which promoted a worldwide narrative by selective, favorable historical accounts based on political ideologies instead of rigorous theological

investigation. The Christian perspective on Islam examines the theological origins of the Islamic faith by first investigating the geographical locations alleged as the nascent religion's early beginnings by exploring the historical and societal development of the Arab peoples. Second, this book probes the legitimacy of Muhammad as a divinely ordered prophet by consulting the Judaic traditions derived from the Jewish Scriptures explaining the qualifications of authentic prophethood. Finally, the sequential order of inquiry laid out above will highlight the emergence of the theology and residual religious rituals observed today in the Islamic world, and therefore, conclusively demonstrate that Islam remains unaligned with its Jewish and Christian predecessors.

neighboring faiths pdf: In the Iberian Peninsula and Beyond Maria Filomena Lopes de Barros, Lúcia Liba Mucznik, José Alberto R. Beginning with an analysis of the forced conversion of Iberian Jews and Muslims, this volume examines the effects of this on their respective diasporas, focusing on a variety of approaches, from language and culture to identity discourses and interchanges between those communities.

neighboring faiths pdf: Why Believe? Neil Shenvi, 2022-05-20 Chemist and Christian Apologist Neil Shenvi Explores the Evidence for Christianity For centuries, skeptics have disputed the claims of Christianity—such as belief in an eternal God and the resurrection of Jesus Christ—arguing that they simply cannot be accepted by reasonable individuals. Furthermore, efforts to demonstrate the evidence and rational basis for Christianity through apologetics are often deemed too simplistic to be taken seriously in intellectual circles. Apologist and theoretical chemist Neil Shenvi engages some of the best contemporary arguments against Christianity, presenting compelling evidence for the identity of Jesus as portrayed in the Gospels, his death and resurrection, the existence of God, and the unique message of the gospel. Why Believe? calls readers from all backgrounds not only to accept Christianity as true, but also to entrust their lives to Christ and worship him alone. Accessible without Being Simplistic: Ideal for intellectuals and academics, as well as high school and college students Well-Researched: Interacts with skeptical arguments against Christianity and God's existence Biblical: Grounded in Scripture and centered on the claims of the gospel

neighboring faiths pdf: Theological Fragments Rubén Rosario Rodríguez, 2023-05-23 The swelling ranks of religious nones—those who do not identify with any particular religious tradition—have demonstrated that traditional Christian apologetics set on delivering a universally accepted, objectively verifiable system that proves the truth and superiority of Christian belief has failed. Turned off by organized Christianity's hypocrisy and politics of intolerance, millennials and Generation Z have rejected such domineering forms of reasoning aimed at winning converts through logical argument. Not only is this misguided missional strategy, argues Rubén Rosario Rodríguez, but it's grounded in bad theology as well. The propositional truth claims imply that if you accept the argument, you must accept the Christian faith too. Instead of this triumphalist understanding of Christian truth, Rosario argues for a broken and contrite Christian theology that can help make

sense of a fractured world. Realizing that fragments of truth are often all we have, he points out that the search for the truth of God and the self will most often be found while engaged in the struggle for justice. Theological Fragments is not another set of strategies for how to win back millennials. Rather, it provides a foundational theological vision necessary to the work of inviting the nones to hear the gospel afresh.
