starting a new church from scratch pdf: *Starting a New Church* Ralph Moore, 2002-09-06 According to the author perhaps our greatest responsibility is to evangelize our own generation. Yet

established churches are not able to do that. In fact, rising generations of Americans live in ignorance of Jesus Christ and have no moral absolutes. Aggressive church planting, the author believes, is the answer to the problem, because new churches focus on the needs of each new generation and present biblical truth in the cultural context that best reaches those people. The objectives of this book are to lay down the challenge to consider becoming a church planter while at the same time screen out wishful thinking and focus on the practical challenges of church planting. This authoritative and edgy message is the next thing in evangelism.

Hyde, Shane Lems, 2011-01-04 As a response to the unique challenges facing the twenty-first-century American church, church planting has become a popular topic. starting a new church from scratch pdf: Church Planting in the Secular West Stefan Paas, 2016-11-03 An expert study of church planting in the most secular part of contemporary Europe In this book Stefan Paas offers thoughtful analysis of reasons and motives for missionary church planting in Europe, and he explores successful and unsuccessful strategies in that post-Christian secularized context. Drawing in part on his own involvement with planting two churches in the Netherlands, Paas explores confessional motives, growth motives, and innovation motives for church planting in Europe, tracing them back to different traditions and reflecting on them from theological and empirical perspectives. He presents examples from the European context and offers sound advice for improving existing missional practices. Paas also draws out lessons for North America in a chapter coauthored with Darrell Guder and John Franke. Finally, Paas weaves together the various threads in the book with a theological defense of church planting. Presenting new research as it does, this critical missiological perspective will add significantly to a fuller understanding of church planting in our contemporary context.

The Episcopal Church has recognized that planting new churches is a high priority through the Mission Enterprise Zones initiative, which provides grant funding for new worshiping communities, in partnership with dioceses. While there is significant literature and training available for church planters in evangelical contexts, very little is available for planters in the Episcopal/mainline context. This book addresses how to rise up and train leaders for the difficult task of planting new churches in the twenty-first century. It answers the essential questions, such as why should we plant churches, what models of church planting are most successful, what kinds of leaders are necessary, and what problems can be expected. Through the author’s personal experience and interviews with diocesan experts and leaders in mainline denominations, it provides strategies, approaches, and problem-solving techniques.

starting a new church from scratch pdf: Beyond Cutting Edge? Paul C. Heidebrecht, 2014-03-10 A quick scan of any newsstand is enough to confirm the widespread preoccupation with technological change. As a myriad of articles and advertisements demonstrate, not only are we preoccupied with technology, but we are bombarded with numerous reminders that the cutting edge is in constant motion. Most often the underlying assumption of Christians is that we have no choice but to find ways to cope with the latest and greatest. Indeed, it is often assumed that the church has no choice but to find ways to cope with its new technological context. This book does not make the same assumptions. Building on the work of Mennonite theologian John Howard Yoder, it argues that the practices of the church make it possible for Christians to conscientiously engage technology. This happens when we recognize that marks of the church such as patience, vulnerability, and servanthood can put technological ideals such as speed, control, and efficiency in their proper place. In the course of grappling with three examples of morally formative technologies--automobiles, genetically modified food, and the Internet--this book goes beyond Yoder's thought by emphasizing that the church also plays a crucial role in our moral formation.
