**under the feet of jesus pdf: Decolonial Environmentalisms** David J. Vázquez, 2025-07-01 A critical examination of the environmental movement and the Latinx voices that are shifting how to think about a future shaped by climate change. In *Decolonial Environmentalisms*, David Vázquez argues that the mainstream environmental movement is implicated in racial capitalism, not least through its ignorance of environmental justice as it pertains to Latinx people. Through close readings of eco-minded novels, films, visual art, and short stories by Chicanx, Puerto Rican, Dominican, Cuban American, Peruvian, and Central American culture makers, Vázquez surfaces diverse Latinx visions for an equitable and sustainable humanity. In the creations of Helena María Viramontes, Ester Hernández, Salvador Plascencia, the printmaking collective Dominican York Proyecto GRAFICA, and others, Vázquez locates a bracing critique of racist elisions and assumptions in hegemonic environmentalist thought. At the same time, he shows that the roles of Latinx people in the exploitation of the US West and the ruin of Indigenous communities are ripe for self-examination, in hopes of sparking reform. Indeed, *Decolonial Environmentalisms* is a work of guarded optimism, finding glimmers of possibility even in dystopic science fiction. The overlooked experiences of Latinx people, Vázquez suggests, can inspire environmental movements capable of transformative advocacy.

**under the feet of jesus pdf: *Salmon and Acorns Feed Our People*** Kari Marie Norgaard, 2019-09-13 Finalist for the 2020 C. Wright Mills Award from the Society for the Study of Social Problems Since time before memory, large numbers of salmon have made their way up and down the Klamath River. Indigenous management enabled the ecological abundance that formed the basis of capitalist wealth across North America. These activities on the landscape continue today, although they are often the site of intense political struggle. Not only has the magnitude of Native American genocide been of remarkable little sociological focus, the fact that this genocide has been coupled with a reorganization of the natural world represents a substantial theoretical void. Whereas much attention has (rightfully) focused on the structuring of capitalism, racism and patriarchy, few sociologists have attended to the ongoing process of North American colonialism. *Salmon and Acorns Feed Our People* draws upon nearly two decades of examples and insight from Karuk experiences on the Klamath River to illustrate how the ecological dynamics of settler-colonialism are essential for theorizing gender, race and social power today.
